[List of Coal Companies Inspected to Date.pdf](#)

This brief was put together to provide you with information that the RA was seeking based on Joe's meeting notes. Mark Durno, Mick Hans, Steve Renninger, and most of the staff and SEEs in CEPPs all quickly pulled this information together .

It is for your immediate information for your senior staff meeting on Monday. We can engage more closely with Water Division, ORC, and OECA (Alan Walts) next week to formulate a comprehensive Regional proposal concerning CERCLA/EPCRA/CWA/OPA Enforcement – I think the RA had tasked Tinka to be the lead???

Of course, let us know if you need more information or different information.

Best,

Sharon
